SUMMARY OF MEETING: Mr. King briefed NASFM board members on the cooperative efforts between CPSC technical staff and NASFM with regard to electrical wiring safety. Ten state fire marshals participated in a program with CPSC to distribute arc fault circuit interrupter (AFCI) devices for installation in state governors' mansions. Mr. King also updated NASFM board members on the status of CPSC staff proposals for AFCIs in the 2005 edition of the "National Electrical Code."
